Lord North has the honour of informing
his Majesty, that the Mill Bill was
not carried up to the House of Lords yes-
terday as he expected, & will not
be ready for the Royal assent on
Tuesday. Both the Land & Mill Bills
will be ready on Thursday, so that if
it not disagreeable to his Majesty to
go to the House of Lords on Thursday
Friday, they may be both pass'd at
the same time. Lord North is in pre

His Majesty's commands, see General
as soon as possible. The American business will
be resumed today at Lord Sandwich's. It was
under consideration last night, upon a proposition
of Lord Dartmouth's for providing the Town of
Boston by removing the Custom House from thence
to holding the assembly for the future in
another place. This was suggested as a mea-
-sure that could be taken immediately by the
sole power of the Crown, with other propositions.
It is to be taken into consideration again today.
