

Sir J. Coxe Hippisley to Col. McC Mahon

18968.

San Carlos
20th Feb

My dear Colonel

Though the appearance of Mr. Day's letter is not such as I could wish, I fear to trouble you, three days, to get one in a more decorous form - She is in the Bishop's hands, & has been advised by her friends to address the General Agent, through, I should suppose the Assembly on the proper channel. I wish to say that Mr. Day's letter is not so good as I should have liked to see - I am sure you will be glad to hear of the Board - probably therefore you will be glad to hear of the enclosed to the Secretary.

I had the honor to preside on Monday and Tuesday on the last of the Board, when I had

exhibited himself both days, very tranquilly, but
drew a great host after him to contemplation of
a life regulated and good.

The Society did themselves to know to elect
you an officer: Vice President, as one of the
principal officers of the Society of Friends - of which
I must assure you a due form, as I have a
witness of it upon me at this moment expected
at such length - I must therefore now give you
myself.

With the most
Respect kindness I have

Most faithfully in Obedience
of which I am
Yours truly
Wm. Penn
