

Ld. Rochford

Jan. 18 1775

1941

Lord Rochford was just going to have the honor to write to
your Majesty when he was honored with your Majesty's note, & to
send the inclosed minute by which your Majesty will see that
Lord Barington's proposal has been adopted. Lord Rochford will
certainly see Gen Allit today and will immediately have the honor
of acquainting your Majesty with his opinion of the 12th Regiment.
Lord North's plan which he partly opened was thought not only feasible
but the wisest that could be pursued.
