

Report of the  
State of His  
Majesty's Health

3<sup>d</sup> April 1813

3 April 1813

Windsor.

That the State of his Majesty's health is not such,  
as to enable his Majesty to resume the personal  
Exercise of his Royal Authority.

His Majesty is at present labouring under a  
common Cold - With respect to his general  
Bodily Health, it appears to be unimpaired.

His Majesty's mental Health continues to be  
as much disordered, as it has been at any time  
during his Majesty's Indisposition.

His Majesty's ultimate recovery is not expected  
by his Physicians. They represent themselves  
as not despairing of that Recovery, ~~not~~ only  
because it is not impossible.
