My dear Sir

Reluctant as I am to add to the trouble you
have heretofore so kindly taken on my long
unanimous favour obtain'd once more to solicit your
Fertion with Lord Pringle.

My son has been advanced more than Six
Months at the Head of the Admiralty List for
Promotion in the Mediterranean - He has been

successively appointed acting Commander of
 four different Ships and has been three times
 superseded. He is now acting Commander
 of the Volcano Bomb to which (tho' not a proper
 vacancy) the Admiral kindly appointed him
to give an opportunity for his Friends to get
him confirmed at home. Supplies to Mr
 May an Officer of this Intelligence who told

me that some further advice was wanting
but intimates his private opinion that my
Law would probably be confirmed. A month
or more has passed and I have heard nothing of
it and unless some powerful influence
used he will be forgotten -

I cannot but flatter myself that your inter-
position under these Circumstances in the
Name of his R. M. must have the desired
Effect - I abstain from applying to you till
I perceive nothing will be done without it -

Believe me my dear Sir
ever truly Yrs
John Forster.

The objects wanted are - My son's Campment
in his Rank of Commander which has been
opening - and his appointments to an 100
Genl Brig - surely this after such a length
of promise is little to be desired
