Most Honored True Regent
21122 May it please your Royal Highness

Early last Spring I humbly requested
your Royal Highness graciously to command
my Boy to be placed as a Clerk in one of the
those offices of the Secretaries of State ~~that~~
the same time I took the Liberty of observing
to your R. H. that provided you did not
graciously order him to be appointed to one
of the first vacancies which might occur,
that he might remain for a very very long
time unemployed To this request my Friend
Col McMahon told me that he had
mentioned the business to Mr Arbuthnot
It is now six months are now elapsed ~~since~~

and the affair remains in statu quo, and
undoubtedly may remain for a great length
of time longer, unless your Royal Highness
shall graciously interpose. I humbly intrust
you Sir to reflect (should I die) before he
is placed in a situation to earn his bread
what a wretched state he will be left in.
For I have nothing to leave by my death
that my goodness ^{which} I have experienced
from you R. N. for so many years
and the thorough knowledge I have of your
private feelings I am persuaded will induce
your R. H. to consider his situation
and attend to my humble but ardent
solicitations.

I remain Sir with the
most perfect respect and attention
your Royal Highness' most faithful
Devoted Servant,
