

April 12. 1778

Adjutant General

to Suffolk

2904

I have seen Mr. Eden since I wrote to  
Your Majesty; and as sometimes Misapprehensions  
arise from want of Accuracy, I beg'd him to be  
particular in his Enquiries whether the  
Omniscien in the Commission did after all  
actually exist, as it seem'd to me almost  
impossible it should. The Result is  
contain'd in the inclosed Note which I  
have this instant received. — This, I presume,  
Your Majesty will think renders my Letter  
to Lord George unnecessary.

Duke of Westminster?
