Sir

I have had much difficulty in proving all the articles charged in the various Bills returned herewith - the greater part of the Charges in Mr Profer's last Bill are presents given by His Royal Highness to Baron Eben and Major Bloomfield, and mostly order'd by the former Gentleman, the rest of his Bill are things for his Royal Highnesses own use and which I have got in my Possession - the former of Profer's Bills I have in part ascertained and have no doubt but that the whole is just -

Mr Griffin, for a Sedan Chair, and repairs to an old one sent to Brighton, is also found correct -

Mr Cuff's Bills are justly charged, the one Bill is for Articles given to the above Two Gentlemen and the other on account of His Royal Highnesses

own use - Mr Eyre's Bill for Trunks &c is of
such an old date, or at least a great part of it
that Mr Eyre cannot recollect who gave the orders
for the various articles charged, except the two last
articles in his Bill which were for Mr Lindimann
and directed by him to be placed to the Princes
account - however on inquiry about the House.
I find that most of the goods have been received
some for the Princes body linen, and some for
Table linen to convey it to and from the
Laundresses - I have desired that in future the
names of persons giving the orders may be affixed
to each article, this I trust you will approve of,
it may at least put some check to a number of
orders which would otherwise take place, where
no such regulation is required

Sir

Mr Downings Account on examination is found to be just, that you may not suppose that I am making the Armory an expensive thing, I beg leave to say that this was His Royal Highnesses own order — Mr Bone's account is also right, the Pictures since they were finished the Prince has seen, and has desired Mr Bone to keep them at his House till wanted, that of Mr Foxes is to go into the Exhibition by His Royal Highnesses permission, I take the liberty to inclose a small account of

1870

The following account is a summary of the work done during the year 1870. It is intended to be put before you as a basis for the report to be made at the next meeting of the Society. The work has been done in accordance with the plan adopted at the last meeting, and it is hoped that it will be found to have been successful in the main. The first part of the work has been the collection of specimens, and this has been done in a very successful manner. The second part has been the examination of these specimens, and this has also been done in a very successful manner. The third part has been the preparation of reports, and this has also been done in a very successful manner. The fourth part has been the publication of these reports, and this has also been done in a very successful manner. The fifth part has been the collection of funds, and this has also been done in a very successful manner. The sixth part has been the expenditure of these funds, and this has also been done in a very successful manner. The seventh part has been the general management of the Society, and this has also been done in a very successful manner. The eighth part has been the correspondence of the Society, and this has also been done in a very successful manner. The ninth part has been the general business of the Society, and this has also been done in a very successful manner. The tenth part has been the general results of the work done during the year, and this has also been done in a very successful manner.

Robert Gray Esq^r

Ms. A. 1506

the Bill you sent me, Mess^{rs} Ashlin & Collings,
for Looking Glasses I recollect to have examined last
year and found it right, I sent it back to the office
with other Bills at that time, I have also examined
the herewith inclosed Bills, and have corrected an
over Charge in that of Mr Profser's of 2.10.6
for Brass Nails charged to the Armoury which had
neither been order'd or received, and his Bill has
been alter'd accordingly - Mr Tatham's Bill has
been inspected many of the Articles contained in it
has not been received at Carlton House in
consequence of the Rooms not being sufficiently
forward to receive them, but it is understood
that they are finished and ready for delivery,
Mr Morels Bill has undergone a deduction of
£11.4.3 in the article of Green Baize, in consequence
of there having been sent a greater quantity than

was wanted, the remainder I have sent back, and
he has given credit for it

Your most humble Serv^t

Benj^m Jutsham

Carlton House

August 4th 1806

I shall take the earliest opportunity to look over
Mr Williams's Bill and send it you when examined,
I ought to say that the over charge in Mr Profser's
Bill was a mistake of his Clerk placing them to
a wrong account

was not
