Sir,

Sir William Congreve had the goodness to communicate to me your letter of the 17th Inst^l respecting Mr Miles. — At the same time he put into my hands a Cheque for £150 which The King has been graciously pleased to bestow on my young friend to enable him to proceed to the Station which is appointed him.

This munificent Donation furnishes an additional Proof of His Majesty's benevolent Disposition and forms another striking instance that the Necessitous have only to make their wants known to their Royal Master to ensure relief. — But for this timely Boon the young Man's fair prospects of advancement in life would have been for ever blasted: — I cannot doubt that his Gratitude will be commensurate with the benefit conferred.

nor am I ignorant of the exalted Generosity
with which The Prince Regent not only
overlooked that Conduct but forgave it:—

It appears, that His Majesty has been

given by me, of his exemplary Conduct — I feel

Sir

I would have done myself the honor of writing you immediately on the receipt of Mr. Davis letter, the Gentleman whose humanely interested himself in getting the petition of my venerable Parishioner laid before his Majesty. But on Sunday morning last I received a verbal intimation from some Gentlemen in Montrose that I need not give myself the trouble to write any more on the subject, as a considerable proportion of Patrick Grants Annuity had already been lodged with them and that of course they were to employ a friend of their own to make the weekly payments. Judging from this that arrangements had already been made and that any further interference on my part would be quite unnecessary — possibly presumptuous, I did not feel myself at liberty to trouble you with any communication of mine on the subject, satisfied that the great object had now been obtained — that thro' the munificent Bounty of their Sovereign, ample provision had now been made for the worthy old Man and his equally deserving Child.

In consequence however of your very polite Card of the 17th Inst. which I received last night I shall have the honor of submitting to Sir Benjamin the plan that to me appears most eligible in

in perfecting arrangements with regard to the payments of said Annuity
The only Banker with whom I do any business is a Mr Coler Richards
Banker Brechin. If Sir Benjamin will allow this gentleman to draw
on him quarterly, or for the half year or annually, the business will be
quite easy, as our intercourse with Brechin the nearest port Town and
only seven miles distant, is frequent, some one or other of my Family
being there once a week or often. There will also be this additional
advantage. If the S^{ts} shall be quarterly, half-yearly, or annually, it
will enable my aged friend and his Child to enjoy in the fullest possible
extent the advantages of his Majesty's Bounty, as the money can remain
at interest with Mr Richards for the benefit of the Annuitants, provided
the payments are judiciously restricted to weekly payments agreeable
to his Majesty's desire, and which otherwise, were the money to come in
another direction, might not be the case. The weekly payments might
indeed be punctual, but then it is very probable the interest would not be
accounted for to them or any one beside.

It were also desirable, and pardon me when I say so, that on
no account, on no pretence whatever, other than shall be agreeable to the
parties themselves, should any part of the Annuity be alienated or deducted
from the weekly payments. The people are fully competent to manage
their own concerns and the Royal Grant is free to them as the gift of
Heaven. Let them enjoy it then as such - let them be permitted to
find their own comforts in the way most agreeable to their own inclination.
Too long have they already experienced the bitterness of poverty to be now
limited

limited in the enjoyment of what His Majesty has been most graciously pleased to bestow, by the presumptuous interference of others who can have no right to direct. Allow me then Sir Benjamin humbly yet earnestly to request, that with whatever commands you may be pleased to honor me or any one else, they may be accompanied with an order expressly prohibiting all such ungracious interferences.

Permit me also to state another fact, nor think me tedious, a fact indeed that was unknown to me at the time the petition to His Majesty was made out as otherwise had escaped my recollection.

The Patrick Grant at an early period of his life had been impelled by the violence of the times to take a decided part on a certain occasion, still his Family deserved well of his King and of his Country. His Father Archbald Grant and his eldest brother John, then a youth of sixteen years of age, both served in the Black Watch now the 1st Highlanders.

The Father fell at the battle of Fontenoy fighting bravely in defence of his King and Country under the Duke of Cumberland of glorious Memory - the fate of the young man was never ascertained. After that battle he was never heard of more. And now Sir.

May the God of Heaven and of Earth bless with multiplied blessings that gracious Monarch who from the elevation of his Throne and of his Dignity could look down with compassionate regard on the lowly Suppliants, could listen to the cry of their distress and graciously extend the hand of relief to raise from the dust the aged Sufferer and the helpless Child and thus pour the balm of consolation into their minds.

Long, very long may he reign the Glory and Happiness of his people and late may he be transferred from an earthly to a heavenly

Heavenly Crown, to an inheritance that is glorious and
incomparable — is the prayer, the united prayer of the Navy —

My dear Sir

The Letter of The Rev^d. Mr. Symers, Manse of Lethind, near Brechin, N^o. But unfortunately Mr. Symers's Letter don't mention the amount of the Pension; and it w^d. be proper for me to specify it, when I give the Banker authority to draw upon me periodically. I have delayed for some time writing

interesting to Your Lord^{sh} and the cause of much
anxiety to Your Friends in the North -

I am obliged however to trouble Your Lordship
without more delay respecting the Pension granted
by the King to Your Protogee, Old Dubouché which it
seems had never been regularly paid him even previous
to his leaving his former residence - The Kirk Session
of Leith who has the management has been in the
practice of always retaining a Sediment for some
purpose not properly explained - as he is now
settled in Braemar it might be best to have the
money paid thro' some other channel which will
prevent the like again happening, and it had been

occurring to me if Your Lordship would have the
goodness to interfere it might be managed at once, and
if instead of remitting it to Brechin as is presently
done, Mr Gray would remit it to Aberdeen to be
paid the Minister & Session of Brechin, from
their being more under our eye we should be able
more easily to prevent any retention of His Majesty's
Royal Munificence to such an interesting Old Subject.

None of it had been paid Dufracks since he came
amongst us. I enclose the only document respecting
the Pension which he has which appears to be the

Your letter of 26. June addressed to

~~has recently been~~ ^{was yesterday} forwarded to this Office, and
Mr. Gray being ~~unable from~~ ^{prevented by} severe indisposition
~~to attend to any business~~, I beg to inform you
that he has been regularly drawn upon every
quarter by Mr. John Richard of Brechin for thirteen
Guineas on behalf of the above Veteran, and in
the beginning of last week he paid a Bill
~~drawn~~ ^{drawn} for that amount, by the same gentleman
for the quarter beginning the 5. ^{th.} instant; so that
there appears to be no ^{reasonable} ~~just~~ grounds why the
Guinea a week should not have been
regularly paid thro' the Minister & Clerk Session
of Leith as originally intended. Had the
Retention commenced when Patrick Grant removed
to

to his present residence, it might probably
have been explained by the difficulty of
conveying the money to him; but you
represent the regular payment to have ceased
previously, the cause for which I apprehend
can only be ascertained from the Clerk of Session,
whose application should ^{also} be made for
~~Grant's Affairs to his depts~~
~~all that is due~~ during the present Quarter
ending 5.th Oct.^r next. It is not easy to com-
prehend what deductions can have been
made from this allowance, unless they are
for the postage of ~~the~~ remittances, and stamps
on the Bills drawn upon Mr. Gray; but the
amount of these alone would be inconsiderable.

I apprehend for the future there would

Sir

You will see by the within, that your advice is much wanted here; relative to Old Patrick's part of the pension, it is under the care of the four Elders, or Kirksession as we call it, But as you was desired by the King to see that it was properly applied, we look upon you as ruling Elder in this affair, and every thing will be done as you direct.

The writer of the letter is a stranger to us, we know nothing about him, But we see it has been dictated by the Old Man and his son William, and we suppose the writer to be their priest, But by what power or authority hee has ought to ask a statement of how the payment of the pension stands, this I am at a loss to know, I will state nothing of that kind to strangers, — Had not Mrs Devis seen the Book, and Box, I would state to you every thing, as per Book, but you have a better account from Her than I can give you, However in case some particulars have slipped her memory, that you would wish to know, I shall give you a short acct. as per Book, — The Old Man kee^s his first Guinea on Monday, the 20 of May 1822. and a Guinea every Monday untill your letter of Dec^r. 3rd arriv'd, His Daughter Ann, kee^s her first Guinea on Monday, Dec^r. 23rd and other part of the Guineas ever since

William had an acct. of £ 5^s 10^d that he said he had
advanced to his father; from Jan. 5th to May the 20th,
After paying off William, there was a balance of £ 10.
and and a few shillings, which William and his father
both insisted to have, the odd shillings paid the Book
and also to hold their monie, and stamps; as long as
it lasted, Anne is paying the stamps now, to the ^{book} guineas
whole, — About Martenmas last a complaint was
given in to the session that Anne Grant would be
starved for want of cloths, The Elders immediately
ordered two pound to be taken from the ten, to buy such
clothing as shee stood in need off, There is still a bal-
ance of £ 8 in the Box, which can be put to Annes
acc^t if you are agreeable, or say what is to be done
with it, shee got but one guinea of the first years
pension, but shee is vevy gratfull to you and all
of us, — When the old Man went off, on May 12.
there was six guineas of the Quarter allowance, be-
ginning the 5th April, not lister, one of them was
due same day, but shee did not call for it, altho
shee went past the vevy door where the monie
was lodged, and there was 5 guineas of the present
Quarter allowance due to him yesterday,
you will say how I am to act if they send Man
for them, and how if William brings him to call

for the guineas himself, and how if hee returns
to reside in the parish,

I hope you will take the trouble to call at Mr. Grays
office, and prevent their proceedings there, for if
the Kirpessions of Braemas, or any priest, is
is to be allowed to interfere, it must be taken
out off my hand altogether, I will have nothing
more to do with it.

I hope you will answer my questions very plain,
that I can see at no loss how to proceed, which
will oblige.

Your Most Humble Servant

James Young

P.S. When William carried his Father North to Braemas
hee could find no lodgings for him, and was obliged
to lodge him in a publick house, but on hearing
that hee had a bundle of Guinea Notes in his bosom
the priest took him in to his Cottage.
The old Man is very abusive, and Williams intention
in taking him North is to get the money in his
paw and deprave his Sister of it altogether.

Sir,

I understand from Old Peter Grant it was thought you had received that part of the King's magnificent Pension which he has hitherto got.

As he is now resident in this Parish and likely to be so for the remainder of his Life you will in future be saved the trouble of drawing for any more money on his account, as he is hereafter to receive it thro' the Sepion of Braemar, but as there is a considerable sum due him at present and I am inform'd from the Dutchy of Cornwall Office the quarter's allowance beginning 5th July last has likewise been drawn for; may I request you will have the goodness to hand me a state of how the payments to him stands, as he asserts he has received no part of the Pension since the end of April and that every previous Part of a considerable sum had been retained for some reason unexplain'd, while again I am inform'd from the above Office "they cannot comprehend what ~~the~~ deductions can have been made, unless they are for the postage of remittances & stamps for the Bills drawn on Mr Gray, but the amount of these alone would be "inconsiderable". but which I have no doubt you will

In consequence of a representation having been made that the Veteran, Patrick Grant, had not been in the regular receipt of His Majesty's Bounty, - I had the honor of addressing you a Letter on the 26th July last proposing to adopt a suggestion of your own (in a letter to Lord Life) that the Allowance should be remitted to Aberdeen instead of to Mr. Rickard, Bank Agent at Brechin, as heretofore; for which purpose I requested to be furnished with the name of any Banker at Aberdeen who would take the trouble to draw quarterly for the Thirteen Guineas to be paid over to the Minister and Session of Brechin on Patrick Grant's behalf - Not having been favored with a letter from you, may I request to be informed if you have had an opportunity of speaking to any Banker on the subject, as the time is approaching when Mr. Colin Rickard usually draws, who must be written to if any new arrangement is effected -

I am concerned to add that Mr. Robert Gray died a few days after I wrote to you - The Gentleman, at this Office on whom ~~the~~ to draw in future for the Highlanders Allowance is Mr. George Harrison, and I beg to add that the times for payment are about the middle of the months of October, January, April and July - I am

 10th Sept - 1823 -

Sir,

Since I addressed you on the 6th a communication has been made to me that in consequence of Patrick Grant's removal to Brecon, an apprehension is excited that, if the whole of the King's Bounty is transmitted to Aberdeen, his daughter will not derive her share of the benefit agreeably to His Majesty's gracious intentions; as it appears that Ann Grant did not accompany her father, who is represented to have been conducted away by a son of whom little was seen or heard during the poverty of his parent; but who (if report says true) has come forward since his prosperity to participate in that which was meant only for the support and comfort of the old Highlander and his daughter. I am therefore commanded to state that two thirds of the allowance will in future be paid for Patrick Grant and the remaining third for Anne the daughter, and I have

have to request that in conformity with this arrangement
Nine Pounds Two Shillings may be drawn for every
Quarter on his behalf instead of the whole of the Thirteen
Guineas as mentioned in my last: and I shall write
to Brechin that the remainder may be drawn for
from thence on the behalf of the daughter. By
this plan it is hoped there will be no obstacle
to the former being the regular receipt of Fourteen
Shillings, and the latter seven Shillings, & two p.

 10th Sept^r 1825 -

Sir

In consequence of your representation of Anne Grant's case, by letter to Mr Davis, by which it appears that she has suffered great want from not having been in the regular receipt of part of His Majesty's bounty, as originally intended, I am commanded to acquaint you / to avoid a recurrence of the evil, that it has been determined seven Shillings a week shall be distinctly apportioned to her, for which purpose I am also directed to write to Mr John Richard that he may draw for the same quantity in like manner as was heretofore done for the Father, whose portion of the bounty will now be paid at Braemar - It is hoped that this arrangement will be satisfactory to all parties - At all events it will keep Anne Grant out of the grasp of a brother -

whose conduct appears to have been so reprehensible

In providing for the daughter the Old Man must not be neglected, and whatever funds remain on hand on his account should be trans-^{ferred} to the Session of Boacmar; and there can be no objection to furnish Mr Roy, with a statement of the Payments that have been made, that Gentleman having only the laudable object in view / in co-operation with Lord Sife) of seeing that the Veterans' interests are not neglected,

I am

Sir

Your very Obedt^h Serv^t

Sir

A new arrangement having been made for the distribution of His Majesty's Bounty to Patrick Grant, and his daughter in consequence of the removal of the former from Lethnot, who will hereafter receive his portion of the allowance through the Minister and Session of Braemar; I am commanded to request you will have the goodness ^{in future} to draw quarterly for Four Pounds Eleven Shillings (being 7^s per week) on behalf of Anne Grant to be payable to the Minister & Kirk Session of Lethnot in like manner as has been hitherto done with the whole of the allowance.

I have further to request that your Drafts may be upon "George Harrison Esq^r" at this Office instead of upon Mr Goay, who I regret to state ~~is~~ ^{has} died

Died in July last.

The Periods for issuing the Quarterly
Payments from hence are about the middle of the Months
of October, January, April, and July; and you will

Sir,

I have been seemingly very remiss in not having before now acknowledged receipt of your polite Letter of 26th July, which I only delayed doing from day to day in hopes at some time of being able to communicate, I had been enabled to get the Money formerly remitted, for the Old Veteran Patrick's Grant's use repaid by Session of Leithnot.

It was only however last post along with your Jan. of 6th Inst. I received an answer to a Letter I wrote the Session Clerk on receipt of your first Jan., from which I see the detention of the Money arises from jealousy of the Old Man on leaving that parish - which it was quite natural he should do after the treatment he received in that quarter, added to the partiality of an Old Highlander for his Native Glen. I expect on a little further explanation the Session of Leithnot will be induced to see the removal in its proper light and pay the Money without more trouble as I should regret giving You any further annoyance on the Old Man's account. As long as he lives here I shall take care no similar attention shall occur in Session of Braemar.

The Cashier of Aberdeen Bank Alex^r. Monice Esq^r
has obligingly consented to take the trouble of drawing
the quarterly allowance in future & pay it over to the
Minister & Secy of Ordnance if he knew exactly the
form required, which it would be very obliging if you
would have the goodness to communicate to him -

Sir

On my return to London yesterday after a fortnight's absence I received your favor of the 14. ult. - Having addressed you a letter on the 10. Sept. stating the arrangements that had been made for an equitable distribution of His Majesty's bounty to Patrick Grant and his heirs there remains only one point in your letter which appears to require a reply, namely, the mode of drawing for the old Highlanders' quarterly allowance. I beg therefore to state that Mr. Morris may draw a Bill, payable at sight, on George Harrison Esquire, of this Office; the amount, as I mentioned in my last, being Nine Pounds Two Shillings and the time for paying the middle of the month after each quarter. - On the other side is annexed a form which appears to me a proper one to be adopted. I remain, Sir,

Sir /

Having received information of the death of the Veteran Highlanders, Patrick Grant, I am under the necessity of again troubling you on the subject of the Pension of a Guinea a week granted by His Majesty. It having been His Majesty's intention that the Daughter, Ann Grant, should have the benefit of Survivorship, I have now to request that your quarterly draft in her favour may be for Thirteen Guineas, (instead of £4.11.0, the ^{quarterly} Allowance, ^{formerly} appointed to her during the life-time of her Father), the same to be payable as ~~before~~ ^{formerly} to the Minister & Kirk Officer of Leith - & I beg your draft may be upon George Harrison Esq^r, at this Office, instead of upon my nephew John Grant was the case in January last. The Money will be in course of payment about the middle of April - I am, Sir,

Your most obedient
 humble servant
