

H. M. to Lord North

Aug. 23 1778

3067

Lord North I return the papers you sent me on
Friday; I cannot but say the personal Character
and conduct of the Duke of Chandos makes
him very worthy of the Post he seems to apply
for; but I shall take no determination till you have
had full time to consider of the various pretenders
to it, as at the same time that I shall wish to
pitch on the most proper person I shall
wish to have your fully concurrent opinion
with me in the choice I shall make
