My Dear Sir

I propose, God permitting, to be in Town on
Friday night, & I should be much obliged
if you would write or see Mr. Wagon
/I believe, but am not certain that his
name is thus spelt/ of the Mint, to
meet me at the Sudby of Lancaster Office
on Saturday morning at eleven, & to
bring with him the Lic, that I un-
derstand from the Duke of Sussex
is finished, for the purpose of the
Royal Medal, - presented by his
late Majesty to the Royal Society, for
certain purposes connected with

Science - The Duke of Sussex is very anxious
to have this affair settled & hence I give
you this trouble -

I have been here, ever since I left
Town, & I thank God, with some
degree of success in relation to the object
of my visit -

Our little friend Mr. Lusher is in
high force; I dined with him last
week, & I do assure you, he gave
you death, as his Teacher, with all
the warmth of the kindest feelings -

The Fossil is in great Beauty, - act.

withstanding the absence of Spring -
I beg my kind regards to Mr
Sumner -

Never believe me,

Your very sincere
& affectionate friend

Wrighton

F. S. Lyon (if so he spells his name)
