

Ld. North

Sept. 9 1779

3514

Ld North, having fully reflected on the difficulty of introducing to his Grace a proposal, to which he has already declared his dislike, & upon the best way of doing it, He thinks that the idea his Majesty did him the honour to suggest of doing it by letter is preferable to the other, & has, accordingly, sketch'd out a letter which he has the honour of submitting to his Majesty for his consideration. This letter will certainly produce an epistolary correspondence, besides several interviews before the business is accomplish'd.

but he hopes that Lord Grey will see  
that any strong administration can not be  
formed without some notice is taken  
of Lord Curzon.

Thursday Sept. 9.
