Y^r Letter my dearest Son arrived Yesterday between seven & eight which induced me to keep the Servant till this Morning, as the Walking upon the Terras was just a going to take place. I am truly happy to find throughout Y^r Letter that the handsome manner in which Miss Goldsworthy comes forward upon this Occasion makes me do relieve Y^r Mind & makes the Separation of Mr. Dashwood easy. I have seen Miss Goldsworthy upon my arrival at Windsor & assured Her that tho I could not have asked Her myself to take this Step, as I looked upon Her during Our Absence as a Liberty to do as She pleased & had given Her leave to Visit Her Friends, I felt the more obliged to Her upon Her coming to Our Assistance so readily upon this Occasion. which I am sure Nothing but Her steady attachment to the whole Family, Y^r real Distress, & Her Friendship for Lady Dashwood ~~which~~ could have made Her do.

She will set out for London on Monday & I Land her
 from that Day till our return from Weymouth
 when I beg to find her ready at Windsor for ^{my} ~~my~~
 Sisters. You will be so kind as to inform the Prin-
 ceps of Wales ^{most} ~~most~~ thoroughly of this & explain to her
 the Manner in which this is come about. & I pray
 most anxiously that it may please the Almighty
 to restore that Amiable Lady Dashwood both to
 You & to Her Family in good Health & to prolong
 Her Life. You will be pleas'd to let Miss Goldsworthy
 have every possible information from Lady Dashwood
 about what is, & is not to be done I will answer for
 Her fulfilling it, & As I have never found ^{Her} Tracypain
 ever since I know Her, I hope every Body's Mind will
 be easy upon that Subject.

I am quite happy to see so fine a Day as it will
 make You enjoy the Races better, ~~and~~ The Post is come
