When I tell You my dearest Son that I only received Yesterday afternoon my answer about Lady Templeton You will not I hope suspect me of forgetfulness or Neglect. The Truth is that Lady Dath has no Personal acquaintance with Her & therefore could not give any Proper account of Her. I did therefore endeavour to get some Information somewhere else, & find that She will not answer particularly well, As She is so much used to Society, that all Confinement would be irksome to Her, & more given to Politics than You perhaps would approve of in a Nursery. I am truly sorry that as it ever is my Sincere wish to assist You, that I have not been Successful in this, & feel still more Unhappy as the Difficulty is so great to meet with any Body that will answer in every Respect. When I see You in Town by

Wednesday You may perhaps have hit upon some
Person that has not as yet occurred to Us, & You may
depend that as far my poor Power can go, to remove
every Uneasy moment left so to You, I shall always be
glad to be of use to You.

The Princess Royal is so much better as to
talk of coming to Town, & Amelia is in a manner
recovered but not permitted to go out as yet, the
others are all well & join with me in Love to You
but none loves You better than

Windsor
