My Dearest Son. Tho' this is a happy Day to those that
Love You (& I not the least among those) it is also a Fatiguing
Day for Yourself. I will therefore not detain You longer
then necessary with a long Letter, but merely follow the
impulse of my Heart, by wishing You not only many
Happy returns of this Day, but that Every one may
be ~~more~~ distinguished with, Health, Prosperity & Contentment
in the Enjoyment of those will of course be included the
Happiness of

Windsor

Your Ever affectionate Mother & Sincere Friend

the 11th August.
