My dearest Son. I am extremely sorry for the cause which prevents my having the pleasure of seeing You but trust that by taking care of Yourself & the assistance of M^r Home You will not only recover soon but be prevented of doing too much before it is proper to do so.

I send inclosed the copy of my Letter to the A. B. of C. as also the Questions & answers from the Consulting Physicians of the 28. or 29. which are the last the Council gave me. I am glad You approved of my Letter, I shall not fail to acquaint You with the result of it as soon as I hear any thing. & now will only add how
Truly I am
