My dearest Son. You will of course
have received Dr Baillie's Bulletin
to Inform You of Charlotte's Force
having increased very much since last
week attended with more Pain in the
Night when the Foot is stretched out.
as also ~~with~~ of an Oppression upon
Her Chest. for neither of which they
can account, as She has abstained from
both riding & Walking & is very regu-
lar in Her Diet. They^r therefore wishes
that Her Journey to the Sea Side may
be soon, as the Month's of Sept^r is the
best for the Weymouth Coast. If You
would be so good as to write a Line
to L^{dy} Plehaster upon this Subject

She will still be able to go into Dorset
Shire so as to be there if not the first
at least in the course of the first Week
in the next Month. The Dr Hopes by
the Effect of the Warm Sea Bathing
may do much for Her, for Her Feet
are seriously annoy'd about the increase
of a Swelling without any possibility
to give any reason for it.

I will not detain You any longer
as I am sure You must be better
employ'd than to read my Letter, & will
only add how unalterably I am

My Dearest Son

Windsor
the 21st August
1814

Your ever affectionate
Mother & sincere Friend

Charlotte
