My dearest Son. Words can not be found strong enough to express the Happiness I feel to End this Year as it was begun, with a Congratulating You upon the Signing of the Peace between this Country and America to which I may add ^{that} of being in Peace with all the World. This has been an very Eventfull Year and the Hand of Providence has in this last unexpected Event proved particularly gracious to this Country, as I am certain that it will be a means to greatly to Facilitate many unpleasing affairs upon Government which it was impossible not to foresee, and which would have ^{caused} _{you} much uneasiness and worry and every thing which lightens Your Burthen, will be most warmly participat^{ed} in

Windsor
