Windsor Castle Nov^{br} 19th 1815.

My dearest Son.

Your kind Letter of the 17th reached me Yesterday Afternoon and I hasten to assure You how ^{Satisfactory} have proved to Me the feelings which You express in Reply to the Letter which I ordered M. General Taylor to write to Lord Liverpool in consequence of the Publication in the Morning Chronicle. I have long been aware of the factious Spirit in which that Paper is published, and while I cordially join with You in the Conviction that the Attempts which have or may be made thro this or any other Vehicle to — sow Division between Us

will fail, I am persuaded that You will unite
with Me in lamenting that the unjustifiable
circulation of My Letters should have afforded
to the Editor of that Paper such an Oppor-
tunity of Indulging His Mischivous Disposition.

I look forward with great pleasure
to Your Visit and I remain ever

My Dearest Son

Your most Affectionate Mother
and Sincere Friend

Charlotte
