

H. K. to Lord North

Parl. House II 299 3690 Queens House Jan. 6. 1780.

See 3667

From the same desire of keeping Lord North exactly informed of every thing that has passed between Me and the Chancellor in his late negotiation with Opposition, I transmit an exact Copy I have taken of a Paper he sent Me on the 26th of last month dated the day before, which Lord North will find is calculated to take off the Edge as much as he can of the letter I had wrote him of which a Copy is already in Lord North's hands; though not intended to a paper War it was impossible for me to acquiesce to every circumstance as now stated; I have therefore prepared a note which I meant to put into the Chancellors hands the first time I saw him as a more amicable mode of conveying my sentiments than in the form of a letter; he is gone to Bath without mentioning that intention to Me; I shall therefore keep it till I meet see him; but chuse to give a Copy of it to Lord North at this time as it concludes a transaction where my conscience fully approves of the Uniformity and fairness of my conduct, but I own the vacation I have met with in the course of it has given me much uneasiness.

I also transmit a letter I received on Saturday from the Dowager Duchess of Ancester on the subject of the Barony of Willoughby of Eosby, I am ready to gratify the family in this request whenever Lord North shall wish to have it put in execution.
