

Ld. Stourmont

3802

St James's May. 13. 1780

Your Majesty was gone to Windsor before
the Dr's new submitted to you could be
got ready. I ventured to send the follos
by last night's Post as there might
have been some inconvenience from delay
and the nature of the Business seemed
to be such as did not require any
particular comments from Your Majesty.
