The P. of W. has deemed it absolutely
necessary, not choosing to act upon his own authority
to convene ^{The King's} confidential servants, that
they may enquire into the exact state of A. M's
unfortunate & melancholy situation of his Phy-
sicians; as well as into the propriety of
removing A. M. to New, such a proposal
having been laid before A. M. M. by the King's
Physicians not only as proper for A. M.
but as absolutely necessary for the reestablishment
of his Health.
