

H.R.H. to Cabinet

38278

I am extremely obliged  
to you for the communication  
of the Papers, you  
have transmitted to me,  
although no particular  
observation occurs upon  
them occurs to me at  
present. The management of  
the King's Person must,  
of course, be trusted to the  
Discretion of the most  
accredited Physicians in  
London, and it certainly  
belongs to His Confidential  
Council to attend earnestly  
to His Situation.

I feel, as you justly  
suppose, every Degree of

anxiety about His <sup>Majesty's</sup>  
Health, both on publick  
and private grounds,  
which can alienate the  
Duty of a son and as  
subject on this ~~of~~ interesting  
Occasion. and that very  
Duty restrains me from  
interfering in a matter  
of which I cannot possibly  
judge.
