Dr. Cottrell is very sorry it has not been in his power sooner to obey the Duke of Portland's commands in sending to his Grace the Questions put to the Physicians this morning by the Lords of the Council.

Included he has the Answer to the same Questions put to Dr. Warner at length, in the whole they stand upon the Minutes; and where the same Questions were expected to be asked Physicians, he has, in order to save time, referred to them by the number; and has proposed the same method in regard to the additional Questions put to Sir Isaac Newton and Dr. Keilwell, after their Answers to the Question No. 2.
