Sir

His Majesty did not think fit to charge me with any commands respecting Prince Augustus, but I am not forbid to receive any communications from the Prince may ~~choose~~ to be conveyed to His Majesty by me, and I humbly submit to your Royal Highness, wh<sup>o</sup>. It would not be most advisable that Prince Augustus after consulting with those persons in whom He has confidence, should consider well & state precisely the terms of whatever representation He would desire to be submitted to His Majesty, which I am sure your Royal Highness is convinced It would be my study to place in as favourable a point of

View as my duty would permit.

I have the honour to be Sir.

Your Royal Highness's

Most Devoted Servant.
