

T. Tyrwhitt to Lady Jersey
Jan. 28 1801

39728 - 9

My dear Madam,

I have just written to the
Prime what I trust will be
thought consolatory, as Graham
has given a most excellent opinion
on the other side, & in which I
believe he will be supported
by Grafton, but he did not come
to town as he promised, so I
cannot say any thing decisive
about him - G. maintains &
proves what he says, (at least

T. 3
I think so) that in very many
old Records the word heir
must ^{mean} successors or mean
nothing at all - but that if it should
not, he advises setting out in
the Petition that Frederick Prince
of Wales &c &c. did enjoy the
Duchy &c. & no man can make
Frederick a bit more the Heir
of the Black Prince, than the Princ
In short he seems to think,
there will be no risk at all
in proceeding - if Gruffy says so
I think the P. will, as at all
events somehow or another
