

Ld. Eldon & H^r. Pitt to H. M.

16th May

40153 - 4

Wednesday May 16th
1804

Sir

Having received the enclosed Opinion from
your Majesty's Physicians, We feel it an
indispensable Duty humbly to transmit it to
your Majesty, and to implore your Majesty to
give it your most serious Attention. We take
this Step from the full Persuasion that on your
Majesty's strict and uniform Compliance with
what is here recommended must depend
the perfect &c Establishment and Preservation
of your Majesty's Health, and with it every
thing that is most important to your Majesty's
Personal ~~and~~ comfort, and to the Continuance

of the full and beneficial Exercise of your
Majesty's Royal Authority for the happiness
of your Subjects. On these Grounds We are
sure your Majesty will pardon us if We
express our most earnest and anxious hope
that while your Majesty attends to the Transaction
of important Business such Time as may
be requisite, your Majesty will not suffer
yourself to be fatigued by a greater Portion
of it than is necessary; and will think it
right carefully to avoid too frequent or
protracted Audiences and Conversions, and

to conform in other respects to such proper
management as may be thought indispensably
necessary to perfect and confirm Your Majesty's
Recovery and to guard against the
Danger of any Relapse, the apprehension of
which, ~~should~~ if these Precautions were neglected,
would become the source of continual Anxiety
and Disheats.

We are
with the utmost deference and submission,

Sir,

Your Majesty's most dutiful
and devoted Subjects and Servants

Eldon
W. Pitt
