March. 16. 1806.

My Dear Braddyll,

All my Cases are here finished, & most completely to my satisfaction - the Raptures with which our Friend's Name is mentioned upon all occasions, the Unanimity with which his Picture was requested, under circumstances where Parties never run higher, and where the Corporations are ready to eat up the Commonalty, really are Events most pleasing - They seem determined to oust J^r within Elford at the Expolition but as I am promised from all Quarters to head the Poll, it is not my Business to enter into their Expentions.

All my Dinner 145. Greener sat down, a Chamber never known to meet before - I never missed my Cantewil till 12 at night, & was, as is said tolerably sober - I sent you for Tomlin's Letter - to day I met with the 3^d Royal Sanctions - very shortly I shall shake you by the hand - very sincerely yours ever
