I think it necessary to trouble Your Majesty with the two last Minutes as they are important, and as no steps can be taken towards carrying into execution the Minute relative to the Relief of Gibraltar, till it has had the sanction of Your Majesty's approbation

St James's Jan 2. 1781.

There will be a Lett to Sr A. Keith and a Private Letter to Sr J. Yorke which it has not been possible for me to get ready in time to send them to your Majesty but as they will contain nothing of Importance I shall venture to send them by this night Mail
