St James July 2^d 1758

The Project, now submitted to Your
Majesty was read to the Meeting on
Saturday last and approved, if it meets
with Your Majesty's approbation it is
proposed to send full Powers to Mr Eden
with orders to make the attempt. I have
but faint hopes of the success of it,
but there should I think be every
proper Endeavour to break the Confederacy
that is forming in the North, and which
altho it would not be dangerous at any
other Time might become so in the
present Conjunction.
