I am happy to find that the Minute  
of yesterday meets with your Majesty's  
approbation.

I am informed that L<sup>d</sup> George Gordon  
certainly means to be at the levee to day  
to present the Book. If after what  
the Lord in waiting will say to him before  
the levee begins we should come into  
the levee room with the Book. Your  
Majesty will probably think it necessary  
that the Lord in waiting or rather the  
Lord Chamberlain if he is at Court  
should direct L<sup>d</sup> George Gordon to  
withdraw for such irregularity.
