Mr Robert Keiths Conduct in the interesting conversation of which he gives an account in his Confidential Letter will I am persuaded meet with your Majesty's approbation. Prince Kaunz's Language upon this occasion seems very fair and honorable.

If your Majesty is so good as to mention to Lord Sandwich the Importance of deriving every possible advantage from the Considered Despersion & Distrub of the french fleet, it will greatly quicken the exertions of the Board of admiralty. There never was a moment that required them more.
