

H. M. to Lord North

4472 Lucas House Feb. 22. 1782.

25 P.M.

Lord North is desired to direct Mr. Partington to assign
the purchase to A. Bordenel by which means I can see
that proper Gamekeepers be always appointed to secure the
Game and I hope by this means many irregularities will
be prevented for which there are now no means of redress
but by the strict Laws which are so severe that it
is impossible to put them in force.

Dr. Demain's bag certainly died on Wednesday Lord North
may therefore have the Appointment of Mr. Barnard
prepared whenever he now pleases.
