Village is not the thing for
 a young man. If I can get
 leave to study here, & you
 are that sort of amateur de

 Adjutant, and then I shall
 announce us as frequently as
 any Prussian Regt.

This infernal ~~marshy~~
 marshy Country has en-
 creased my Rheumatism,
 the day before yesterday
 I rode a pigsticker of my Regt
 which was in duty on the banks
 of the Rhine, & I no sooner
 appear'd than they did me
 the honor to fire seven
 shot at me, but luckily
 was off. It will be cruel
 after such a hard winter
 Campaign if the King refuse
 to concern me at a time

when there is nothing to be done
 at the Army. My whole trust
 is in You, if You will, You can
 arrange any thing. I by no
 means doubt that Mrs. Lettice
 knows of Yourselves to have

I received the assurance of a big ship

especially my own which I always commended
 myself, a thing which none of the
 other Brigades could, as they do
 not care to dance but they must
 war. In the beginning of this month
 I was informed my Brigades to
 march the 22nd and was to be encamped
 in the Bay de la Forêt, as all the
 Companies were to encamp together.

On the 22nd my brigade called the
 Camp, and after having settled
 every thing to the entire satisfac-
 tion of the Troops & Gentlemen, I
 received in order that M. G. de
 Valenciennes, former Governor of
 Edward I was to have this brig & I
 was to put myself under his orders.

Valenciennes has never done any duty
 since the Army retreated last year
 from Vitoria, he has his notion I believe
 of being than an old woman,
 he is for the last 12 years has
 never seen a soldier, he has to work

to Vienna, Italy, & has soling with my
 brother; his name is just my father General
 there now, which was he four or five years
 would not be half so beautiful. All the
 Troops in the camp except already they
 the plague there, & better no measure
 to assist them as the Royal behaviour
 of the gentlemen. You must own this
 behaviour of Valenciennes to me is really
 disheartening, I am now a man nothing
 has no brigade, & consequently can
 not go to the camp, except sometimes
 in the afternoon. I am was it not
 out of attachment for my Regt
 which would love best, I would send
 in my Resignation to morrow.

I beg & entreat you dance to or there
 so if you cannot manage my
 return home. Believe me to be
 most faithfully

The news of the approaching Death of Field-marshal Freytag being daily expected, and the Command in consequence falling on General Walmoden, I wish to seize this Opportunity of resigning my Regiment & quitting the Hannoverian Service, as I should be sorry to appear to do any thing personal, and for many Reasons cannot possibly serve under General Walmoden. Allow me once more to address myself to Your Majesty and
 throw myself on Your Goodness. Consider for one moment how great
 must be my Anxiety to serve at this Crisis, when the whole
 Nation is arming, and even Your Majesty in Person intends to
 come forward, a time in which it behoves every Man to assist
 in the Defence of Great Britain. I have again offered my
 Services to the Commander in Chief, who answered me by
 Letter "that it would do me more harm than Good, the
 mentioning the Subject to You;" alluding to the Step which
 I had taken in quitting the Hannoverian Service. Y. M.
 highly tenacious of Your own Honor, if You consider this
 Business must feel, that I should have forfeited mine,
 had I continued in the Hannoverian Service, contrary to
 my solemn and public Declarations of never serving
 under Gen^l Walmoden, who had personally ill treated
 me. It would be presumption in me to suppose that
 I have fewer Enemies than other Men and there would

not have been wanting those to have represented my Conduct if not
in a dishonorable Light, at least as inconsistent in making such
Declarations without Foundation.

Sir

It is four Weeks since I presumed to write to Your Majesty entreating Your Acceptance of my Services in any Way that You might think consistent with Your dignity to grant throwing myself entirely on Your Goodness, which, Sir, I again most humbly do, and again beg Leave to state my Willingness and Anxiety to bear Arms for the defence of my Country in any Capacity. Permit me, Sir, to repeat, that I do not solicit Y. M. for any particular Rank, but to be employed in any military Situation whatever that meets with Your Approbation, which I pledge myself to fulfill, and if Y. M. Determination should be that I should enter the Service in a Subordinate Line, I shall be proud to do my Duty & to give the Example at such a Moment of obeying as strictly as if I never had had a Command. I should not have presumed to address Y. M. a second time upon the same Subject, but as I have received no Answer to my first Letter, I have not thought it respectful to Y. M. to act, or to appear in Your Presence; for, Sir,

believe me when I assure You upon my Honor it is most painful
to me to take any Step contrary to Your Approbation, yet
it is highly necessary that I should take some Step for the
Sake of my Character to prove my Anxiety to assist in
the Defence of my Country. Should Y. M. not be so
gracious to employ me, in that case I have no Step
left, but to serve as a Private in the German Army and
thereby save my being looked upon as an Enemy
