The promise of orders has ^{just} honored me with a
communication to your Lordship which I fulfill
with infinite satisfaction. From various quarters
it has come round to His R. H. that His Maj.^{ty}
had expressed a wish to have The P. C. under his
immediate care. The P. of W. apprehends that
the generous Whigery that so peculiarly marks
the King may have prevented His M^{ty}'s signing
his Decree upon this Subject. Therefore his R. H.
commands me to request that your Lordship
with tender his humble Duty to the King with
the profession that it such be His Majesty's Pleasure
nothing could be more highly gratifying to His R. H.

have to see the Princess Charlotte taken under
his Majesty's special direction.

The P. of W. only hopes this explanation
may, in Indulgence to a Father's Anxiety, be
accepted: that he would consent to commit the
Princess Charlotte to the sole & exclusive
Care of Sir King.

Shave the Honour to be, My
Lord with much Respect
