The Prince of Wales requests the Lord Chancellor to lay before the King the dutiful & most respectful acknowledgements of the Prince for His Majesty's Condescension in reconsidering an Article in the proposed Arrangement.

The footing on which the business is now placed, the Prince most earnestly hopes, and trusts, will remove any further difficulty.

The Prince of Wales has nothing to add but the renewed assurance of his Devotion to the King, and of the Happiness he must ever feel when he has the good fortune to have it in his power to do anything that is pleasing to his Majesty.
