My dear Father

I cannot quit this without leaving
a few lines to express of the very high
satisfaction & great pleasure I have
derived in being here with you &
with what regret I leave it. This
has perhaps been one of the
happiest in my life. No thing
can exceed the wish I have of being
with you the most perfect of things
with you. I am convinced of the
importance of this, as I have said
to be derived from the best
acquaintance & high & understanding
subsisting between us, which
will now and I trust will
live — You may see our interest
I am sure will derive from what
is now that I am incapable

of it & if you will best trust & I
place confidence in my honor
that you shall have have more
to report having done so
I shall see in future always to
apply to you directly & stop me
in front there may be no
business in the future between us
who have been very busy to
communicate with always come
so much to the point having
the same any one else
