Sir

The state of my health preventing the continuance of my professional pursuits, & being consequently under the necessity of parting with my series of Portraits of Her late Royal Highness, the Princess Charlotte of Wales, to whom, by the gracious permission of His Majesty, I had the honor to be Miniature Painter — May I beg the favor of you Sir, to lay these interesting Portraits at the feet of the King, together with my unfortunate case, for His Majesty's most gracious consideration —

I am, Sir,

respectfully

Your obedient & obliged Servant

Charlotte Jones
