See my son, if he is in London
and tell me that you have seen
him, my beloved my unfortunate
child. Why did I quit England then
the only wrong thing I ever did
but I was not in my senses when
they took me on board. but they
spont it for the best
if I am tried it must be by
my peers and this could not be
till next session Why, Why, did
I leave my poor too much
love for my children and friends
