Sir

I have long been Weighing in my  
Mind the Propriest manner of Conveying to Your  
Majesty, my Earnest desire of being Employ'd in my  
Profession, and as Your Majesty was pleas'd to Express  
 thro' Lord George Germain, that You receiv'd the Offer  
 of my Services, (on the Commencement of the French  
 Hostilities) very graciously, I attributed their not being  
 accepted to my having at that time the Misfortune  
 of Being deprived of the Honor of paying my Duty  
 to Your Majesty in Person. that Obstacle being  
 removed, I beg leave to submit to Your Majesty's  
 Consideration, the Peculiar Awkwardness of my  
 Situation, to remain Inactive at Home, at a time  
 when Your Majesty is Surrounded by Enemy's.

and Your Fleets are Employ'd in every part of the  
Globe -

I am Sir Ready to Act, under any Superior  
Officer now Employ'd, in any Manner Your Majesty  
shall judge most Conducive to Your Service, & I  
flatter myself Your Majesty will therefore find no  
Difficulty in Complying with my Wishes -

I remain

Sir

you would let me know whether you

I beg my best love to Prince  
Frederick tell him how heart I am at the  
accident, but hope it will be of no bad consequence  
I shall certainly do myself the pleasure of  
writing you <sup>you</sup> next Sunday soon after one o'clock -  
I hope by that time you will have your Establishment  
fixed - we have had great sport here - you  
need not give yourself the trouble of writing  
to me again as there will be no way of conveying  
here time enough for me before Sunday - I hope  
we shall have some good hunts together as I  
shall devote my time to you whenever I am  
not thought troublesome - I have given your  
Camp<sup>ts</sup> & they are much flattered with your  
goodness never doubting your good intentions

I can easily <sup>conceive</sup> your feelings for your Brother  
indeed he is a delightful fine fellow & I can  
say nothing has made me happier in my  
acquaintance with you both as that perfect  
harmony that subsists between you both your  
brother I have some curious anecdotes about  
Ornery to communicate to him when we meet  
from a person who is just come from thence -

permit me to conclude with assuring you  
how sincerely & unalterably I am  
attached to you - & that nothing in  
life can ever make me differ in these  
sentiments

I have made every inquiry after Prince  
Williams they left the Fleet three days ago & are  
cruizing about Brest they are in want of Wine &  
Water & therefore I believe they will be in about  
the middle or end of the next week - while the

were throwing Shells on the Town & have entirely  
destroyed the House so that nothing remains but

My Dear Prime —

We arrived at Dover between Nine & Ten

the Carriages being very much loaded made our Journey  
so long we embarked Monday Morning at half 12.  
Sight for Calais & arrived here by half 12 Twelve

very lady in good health & hardly sick any subject  
at all this day we set out for Paris & shall  
arrive there on Sunday from whence you shall

much for the manner of passing our time —

more sincerely attached to you than myself &  
that my greatest wish in life is your honor,  
happiness, & prosperity, I cannot help writing  
the very feelings of my heart to you - your conduct

you - you have a right to command me  
we are just now getting into the Carriage &  
both hope we shall not be forgot

My Dear Prime -

We arrived here last Thursday the Duke & Duchess of  
 Manchester have shown us every mark of civility we have  
 seen the French Opera & Play - the March King &  
 had fine ~~parties~~ then & the dancing very good Gardel  
 exceedingly improved but I fear he is in a decline therefore does  
 not dare to dance much I gave your subject: Letter  
 who has lived with you & was here 4 Nights a party of  
 about 18 at my house - I leave this place on Tuesday for  
 Strasbourg & do not now go to Dijon at all I have just  
 seen the Duke of Chartres a visit he paid me here at my door  
 & I waited on him ~~on~~ yesterday morning very civil but  
 our offer to entertain our mentioned the D. of Chartres - refers  
 for his civility to us after our amusing him in London  
 the D. desires me to express her most respectful good wishes  
 to you - I hope you are diverting yourself - I feel very  
 sincerely the loss of you my dear friend & indeed after such  
 an acquaintance as I have had with you I find nothing  
 that any other can resemble you - I would give my heart to  
 whom I have confided this - send your letter without a

cover directed to me. ~~and~~ ~~to~~ Miller at Cumberland  
I have no kind of news to tell you here & I fear my  
letters to you who live in a very gay world will appear  
but dull. I hope your friend will not be scrupulous &  
come & partake of your agreeable parties at your house.  
As happy my dear Sir is my greatest wish. You must  
allow me when I write to put it without a cover as  
I shall always deposit it under cover to somebody  
who will give it safe at your house. Permit me

To subscribe myself with the greatest sincerity

My Dear Prince

I never can forget any thing y<sup>r</sup> R. H. knows, that a little beauty, accompany'd w<sup>th</sup> strong Sensibility, & a Thousand acquirements constitutes the tout en semble capable of inspiring a Taste passion rather than Symmetry of Form or Features; of these however I had no opportunity of Judging, but if (as I had d.) they stop here some Days in their way home, I shall be very observing, & y<sup>r</sup> R. H. shall know the Hour & Contre. a point I had given the D. of M. excited the Curiosity of all his Company as to the mental qualities &c. &c. my Difficultys were at an end, or having exhausted every

My Dear Prime —

How much am I flattered by your kind  
 letter of the 16<sup>th</sup> which I rec<sup>d</sup> last Friday the Post from  
 the banks of the Trent <sup>did</sup> not arrive as it ought to have done  
 on the Wednesday or I should have answered yours on the  
 Thursday which is our constant day to write to England  
 with what words can I express your ever repeated goodness  
 to me now God knows it is but in words may ever a time  
 arrive in which I may prove to you how sincerely I am attached  
 to you the G. joins me in her most sincere wishes for your  
 welfare & happiness & with the lament that the  
 present critical situation of Publick affairs does  
 by no means assist in making you happy the Post of this  
 day is not as yet come in, & as I am furnished by you  
 my dear friend another letter I am in great expectation

 taken previous to the visit to visit our friends if  
 there was a possibility - should it succeed it cannot

last you know best whether it is steady if he does not join  
the other side they will find it a very hard struggle indeed & yet  
how will it be done with 1<sup>st</sup> I know they will try to get  
out Loughborough I suppose. Th - w will be Chancellor  
~~but~~ he is the great favourite of all - I must own I was not at  
all surprised to hear about the House of Lords - I suppose  
if the change has not happened yet, that all the  
wheels will be at work during the recess yet so - ~~and then~~  
I must feel most sincerely as every event that makes so many  
changes at home ~~it~~ does us the greatest harm abroad &  
shows that when we have not other enemies to cope with,  
we must quarrel among ourselves - I was always very glad to  
be in the last Administration I knew he would not  
doubt whenever he could as he certainly was not cordial  
with your friends - he had been too long used, to bear to act  
an under part & I suppose with the change will be made  
Secretary of State for the Foreign Department I do not fancy  
much Th - & Mr Pitt. Together I think they will  
not like to act together or give way to one another  
So - I may not be in the House with them but I think  
he has had enough of Government not to venture again but if  
he does all will soon be in confusion again -

 have two rooms to see Company and a dining Room which  
 can hold but 20 upon occasion we had our ~~company~~ last  
 night for the first time the hours here are very early  
 as you know every thing is abroad Company come at six  
 and as we had no supper the house was clear of them  
 about eight at that is the time people go to play cards  
 at houses when they are invited to sup - supper on table  
 at half past nine and past soon after eleven the rule  
 is to be about three quarters of an hour at supper  
 & then finish the game of cards that went by in the evening  
 we have a French Play house open four times in a week  
 begins at half past five over soon after eight we dine  
 at three but only our own family the tables except of  
 the Garrison dine at one - I have reported here and  
 Prince Frederick was to come over this winter to  
 England I have this morning seen a Monsieur Frederick  
 who is judge advocate to the German Troops at Gibraltar  
 he is going Wednesday to Hannover I shall write to Frederick

by him - I shall now conclude this but rest before I ask you  
after the M. are they in favour for you do not mention  
their names as for Madame Fortun who I saw at Paris  
I cannot by any means say she would suit you she is thin  
and did not appear to me like sprightly enough I suppose  
you have seen the D. M. - as I desired him to call  
upon you & tell you every thing relative to us - be a good  
guard of the D. L. comes to England & do not be too  
civil for I think considering the attention I should wish  
to have given us of late or at least as much  
attention as to a private English Gentleman how you  
or hunting I want much to know your reception after  
Monday vote you need not write names but I have  
no undertaken each other enough without being too explicit  
I assure you it is great Charity during my absence  
to hear from you I write this today for fear I should  
not have time enough to mention when the Post goes

Strasbourg Wednesday 14<sup>th</sup> April 1784

My Dear Prince

I am exceedingly sorry to hear you have been ill the weather having been so bad, I fear has hindered your taking that exercise which is so beneficial to your health. Our life here is pretty much the same, the Marquis de la Salle the Commandant is at home three evenings in the week at a little after eight after the play parties of cards are made everybody plays at a very moderate price & indeed in allusion to it is of the greatest consequence that play for any great sum should be forbid. - Supper is over & everybody retires by half past eleven every Sat. the D<sup>r</sup> has company to supper & we at our house just do the same as the Commandant the D<sup>r</sup> desires to be kindly remembered by you as well as Fenary & S<sup>r</sup> J. Henry

Foulke is obliged to come to England as he has a disagreeable  
Scurvy with his Neck & therefore will not return  
and he will have the honor of having this in the  
House in case you do not see him - I find by the Paper  
the Duke of Chartres is come to England he is quite  
up at Paris & has been obliged to leave the D. of Mass.  
out 4000 - & a year after the great storm he  
brought <sup>him</sup> ~~him~~ in very bad reports in his own Court.  
The Papers mention your having supped with him at  
the French Ambassadors - The weather here is quite  
rather finer but the Spring is most exceedingly  
backward owing to the hard frost - How goes on Russia  
I have not had an answer to the letter sent to  
Prince Frederick just before Christmas Believe me  
at all times your ever since friend & well  
wisher

Henry
