

7. a clock.

Dr Dr Lee, I am confidently told, that
 a Message will be sent next Week to the
 H^{ouse} of Comons, assing Advice, as I told
 Y^r last night; I think th' only thing
 in that case we have to do, is to avoid
 giving any, and to move for a Committee to
 looke into the State of the Nation, which
 will lead us into a great field, and
 loock them Strongly. Be so good to dine
 Wednesday next with Lrd Carlisle with
 me here, we'll be alone, and talk over
 the matters of yesterday. I'll expect
 Y^r at 4. a clock. Good night Dr
 Lee.

J.P.
