

Wednesday 7. a close

Dr Sir Lee, I am sorry to hear Y<sup>e</sup> are  
 not so well, as I expected, pray stay a week  
 longer, that may do the business. The  
 Par<sup>ty</sup> will meet certainly the 15<sup>th</sup>, the  
 impatience of the <sup>Assembly</sup> has carry'd it,  
 against Sel<sup>'s</sup> representations, and pro-  
 mises that notwithstanding, its meeting  
 after th<sup>e</sup> <sup>next</sup>, it should be up, at  
 Easter. Doct<sup>r</sup> has seiz'd hands, and is  
 sufficiently abus'd by them for it, tho'  
 their Orders for attendance is doubt<sup>ed</sup>  
 since, and that they show great fears  
 about it. I and my Family are thank God

very well. I'll stay a week longer in the  
Country, which joint to th' Exercise I take  
there, has fix'd my health for the winter  
& hope. Good bye Dr Lee, may Y<sup>r</sup> legs  
grow as good, as <sup>your</sup> good heart, and head.

Frederick L.
