My Dearest Brother

A thousand thanks for your most kind letter  
and enquires, I am very considerably better today for the Leeches which were  
applied last night. I placed them exactly where I felt the weight and oppression  
which was rather below the throat - they did immensly good and have relieved me  
beyond measure. Sir Henrys good advice of having some b. c. Water mixed  
in with the first day that it encouraged me to try a second which also helped to  
do good - but the Leeches have been the most effectual as I could place them on the  
very spot of wrong. I hope in a few days to recover from that I have fallen out of  
Dearest Mary is enchanted with your letter and I trust we shall have the plea-  
sure of enjoying my dear Society together - I am still in bed which obliges me to  
conclude this as I must take care not to catch cold with Jennys children. They  
agree to what Beths combs thought it right as Sir Henry had ordered them,  
to repeat them again - I am very very happy things are going on in the  
night and great side - Ed. says called here yesterday to tell Miss Mary and with  
what pride and satisfaction he sent you your acceptance on Sunday last  
God bless you yours very affectionate  
Wm Pitt
