To Pe of Wales

My Dearest Brother

The Queen desires her best love to you and thanks for your kind letter which she would have answered yesterday but had not time to do so, and this morning she suffers from an inflammation she has put to her eye which we all hope may prove favorable to her - She hopes to see you tomorrow as well as your dear little Charlotte to whom you are to give a kiss from her -

I am happy to hear that you think things will yet into a train of understanding - We are all very anxious indeed!

I am ad as more now My Dearest as I am want for to breakfast - but had I time to cover sheets of paper they would never convey how much I love and wait upon you

Your most truly affec

Augusta

Mama desires her love to the King which we all join -
