My dear Mr. Brotherton

My Mother told me yesterday she would in her letter to day beg of you to send her some young Savages & a Dog, & take the name of the Lake. I have unfortunately forgot but Kenois knows it — when her letter was written she said when our asking that you was always to send that she could not bear to seege you with asking therefore we told her we would do it for her & as I was Jack of all Trades, I promised to become her secretary & entreat of you to favour us with something she might like for not having

been for an hour out of the house
 since the first day of the year and
 body so much inclined to eat -
 we anxiously hope the weather
 will change for we are all starved.
 My best delighted to hear from
 Sir Henry you are well -
 we laughed heartily at Lucia's
 letter we wanted something
 to amuse us for we are so
 then dull & stupid how
 kind & good it was of You to
 send for Blomfield & give
 my Mother so delighted with
 him - How God bless You.
 I think whenever we do move
 but that is in secret Mary
 & me will be the first to

My dearest Brother

Your delightful letter would have been answered immediately, but that it struck me when the Drog arrived my Mother would command me to thank You, therefore, most attentive to Your interest, I thought it was wiser to trouble you with only one stuffed repulle instead of two my Madi was contented to share on Your pipe, Your sausage, & the cake, all of which were duly eat & I eat of with gratitude —

Now for Your private letter to me which has never been named but to Mary who laughed at it as much as I did, Your goodness to all of us, is felt beyond words, for You are ever in our hearts & we are perfectly certain

that You are always doing everything
 to make us as happy as You can —
 Mary says she hopes You will find
 something better to suck for the
 once releasing toe is now healed,
 half the size that it was, & the lent
 is grown thun by wearing, she
 thinks now that You will forget
 your kind offer of service to the
 fingers of Her foot by the top of Your
first love Mrs Markham who she
stands out You once thought a very
comely well looking public woman
 from knowing Your taste some
years longer than Mary like a
 true friend I caught Your battle,
 & assured Her it was no such thing,
 but she declares, I am perfectly in
 the wrong now, so I conclude it was
 carried on secretly at Her by You

I am quite sure "That Doll would not
drop the water to you"

It is very kind of you to read any letter
from home as we never stir & see
no soul for the neighbours cannot
come on account of the cold, the roads,
the fog, the snow the frost & soon
poor fantion (Gen Cartwright) totally
confined with the gout in both feet
& both knees, which he cannot at
tribute to the good living at Carlton
House, if it had come from that
he would have stood it better now
even he is getting about now—

The Dowry Harcourt where she is a
host in herself always agreeable &
comes & sits with me of a morning
we build castles in the air which
amuse us or rather she builds them
for me, & when she has worked
my imagination to the summit
of bliss, I still find myself in my

own room by my own fire side with my
comforts round me for which I am
thankful but I don't disown that
like an infant my last house is
fallen to the ground - I wish I had
till you a most ridiculous speech
made by a child of nine years
old concerning you which hath
killed us - It would have made
you laugh - but it cannot be
written if I had Leignet's talent
it might be sent you well co-
versed, but our language does not
do for that kind of thing - &
second hand wit is a very bad
thing, genuine excellent,
if I have been very gentle & con-
tinuing I conclude you will soon
think of La Madre's making you
a visit -
I must conclude as I repose at the

good news, but there is an if before
the 400,000 which rather gave
me a sou-throat for that sum-
sounds to me remember for
10,000 Men - but as we are play-
ing a great & deep game, I am
sensible nothing should be left
undone as we have fought
the battle so nobly, so uprightly
so unlike any of the other Na-
tions - in short we are English
which is our greatest blessing
for no country could have
done what we have done &
I doubt not that Providence
will reward us mercifully
May be You will thank me

very impertinent but I could
not resist speaking as I felt
the banter necessary in my
mouth so advise my dearest
dear love - may heaven
bless & reward you for all your
trials & may - but no! nothing
against my neighbours I
am not to be the Lord Chief
Justice of the world so
Believe me

The Queen commands me to say
the last account by Her Servant gave her
great comfort, but being sure of seeing
my good nature that she will write
by the time of next coach she yet
feels anxious for a further account
before night she doubts you with
this enquiry from herself & Mother
are all very very anxious about
you — Sophia had come back after
from the morning & Mary thank
her much the same as yesterday
I fear saying more now may

My dearest Brother

My Brother is most anxious
for Henry being here, to have a faith-
ful account of you & is sure you
will allow Col Bloomfield to
write me a few lines both today
& to-morrow — God grant you
may be better & that the calamity
you have given us (the secrecy
kept secret) you will prevent
for the future by really think-
ing you are of the greatest con-
sequence not only to your fa-
mily but the Nation, & that

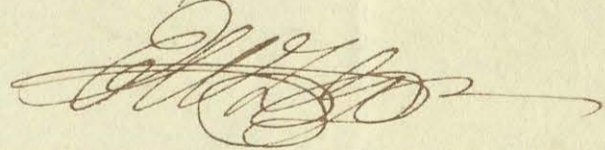

you will take every possible care to
prevent these violent attacks re-
turning, for they are no joke —
You may believe we are occasionally
wishing to see You — which now
of course cannot be ventured, till
you are strong enough —

Don't say I have had a bad night
but I trust that the medicine
Sir Henry has ordered, has, will
be of service, for two days she
was a little better —

Augusta & Mary are quite well
& Mary in a few days will
be able to put on her own
shoe —

You well by this time have received my first
note I am now to send the very first
my sister by Sir Henry. I have had
volume from Royal who writes quite
provoked with the mischief Ernest will
say to the whole family, for she speaks so
improperly of you that is quite abominable,
she says if it was one person that told
us we would not believe it, but all say
the same & knowing how kind my sister
then is about all of you I let you know
the truth that you may be aware of
when Ernest writes me word that the
D. Regent approves of every thing he has
done I don't believe it, the mischief he
has done is dreadful may be upon your
guard" She says in continuation that
the Great Duchess Catherine has been with
her a most amiable sweet creature
who tells her that the Emperor of Russia

can so innocently be well with You that
 it is quite heart breaking. I am so sensible
 she has a horror of him & is aware that
 he is cruelly unskilful to all those
 he ought to love & honor, she is full
 of all this jealousy & has gained my
 sister by the flattering things she has
 said of You & so all which delights
 poor dear Royal who tells me she has
 heard more of us from the G. D. father
 more than from any other person
 but Sir Thomas who she speaks on
 the highest terms of. She speaks very
 ill of the D. of Solmes — & says it is
 quite a disgrace D. Duets & other papers
 which, but all agree to the truth of
 them — so I beseech You to speak
 openly to my Mother who is per-
 fectly sensible of the mischief entailed
 on the family by this wild step
 of Jonest's —

Sir Thomas Egmont said to her, he has

 sensible that it is a cruel business
 & I never saw her so forgotten & anxious
 about seeing you — & she told me she
 hoped you would prevent them coming to
^{this} country but is anxious it should
 be your word & deed — before she
 knows any thing of the matter;
 my Mother now suspects the letter
 & sup from the Dr. Solms had
 been bribes for she never wrote or
 took any notice of her before — but
this I tell you in confidence & I
 rely on you not to betray me
 I am ashamed to send you such
 a scrawl, but having a good
