I will not go to bed without returning
you ten thousand thanks for all your
kindness, which can never be forgotten
& we have all agreed that our enjoyment
at Brighton has been as happy
as possible and to speak the truth
I never was so happy in my life
& the extreme kindness, affection,
& goodness You have shown us
can never be effaced from our
memory. You must be particu-
larly happy yourself in
feeling so thoroughly confident
of the happiness You occasioned
around You — My Mother is

returned quite delighted, & declare
 she has not felt so well, so light
 & so free from weight as whilst
 she was at Brighton, we arrived
 here at half past five o'clock
 which was owing to our being
 obliged to come through part
 of Brickwood Street as the bridge
 at Northam is down — My
 Mother, Grace & Lady Harrington
 slept, during that time I studied
 the Brighton Guide to no purpose
 upon my mind every spot,
 where your kindness was so
 sensibly felt, I beg You to under-
 stand that my head is such
 a bad one that I require this,
 for on my Heart all is as unquiet
 that it can never be obliterated

We are all enchanted with the
 society we have enjoyed so much
 & beg you to express to Lord &
 Lady Bedford and to my Brother
 Seymour how much we have
 felt their kindness & attention
 wish that I could name all
 but entreat of you to say every
 thing that is kind & friendly
 I hope that Lord Bedford is
 better —

We thank God found all well
 here which was a great blessing
 the dear Henry being uncon-
 monly well & happy regularly
 & happy in himself — I hope
 not quite so well today otherwise
 much the same —

Pray don't forget to say every thing
kind to Genl Bloomfield who you
well know is a great favorite
with us all tell them his ears
ought to have burst, for that
one & all are full of his never
fading attentions to oblige - I
must add that what we felt
above stairs all our servants
reached below stairs for they
are devoted. You should know
that their gratitude to you &
to all belonging to you is un-
bounded, & in Universally
was never more comprehensive
I might fill volumes but
I never could satisfy myself
with saying half enough so
God bless you & all
Yours

Nov. 1 1814

As I have received your amiable letter
last night I put it off till today,
that you might not be tired with
too many letters at once — Nothing
can exceed our gratitude for your most
perfect letter, which delighted us all,
beyond words, indeed our feelings
were alike, for our hearts were full
at parting with you & now my
wishes would be in collecting
things for the Pavilion which may
be worthy of your collection, there
for nothing on earth gives me half
as much pleasure as in finding
any thing worth your notice & I
am perfectly sensible that I can
never do enough to express my
sentiments of affection & love for

You, my Mother can talk of nothing
 else but your attentions & kindness &
 owns that she has not felt so light
 for years as she did whilst she was
 with you — I rejoice you have still
 so many of the society with you &
 am delighted that my dear Sister
 has returned to you. She appeared to
 me particularly well, & happy &
 told me she was more pleased with
 her party than she could express —
 This morning brought me a letter
 from dear Lady Dow Harcourt who
 tells me she was going to the Soci-
 tion with you. Think me very im-
 portunate if I enclose an answer
 to her — I hope you will pardon
 it & beg your excellent Guel Bloom-
 field to forward it to her — I must
 now return you ten thousand thanks
 for Acknowled, which at last I have
 taken possession of, & I am now

Nov. 1 1814

going to apply to the Secretary for
the estimate to be made for the re-
pairs, which are very much
wanted & my Mother has promised
me to go over that I may meet the
person on the spot—

In short which ever way I choose
my heart is sensible of your un-
bounded kindness & good nature all
I have to offer are thanks which
can but be feebly expressed, the
receipt of which you have in full
& the utmost must be gratitude
on the heart of your affectionate

 to you, when I received yours, which
 was very acceptable — I am very
 happy you found my account of
 the interesting family you have
 visited correct, — I am almost dead

 he has been set at Liberty. I trust
 we had mercy that the Duke being
 truly in earnest will work this man-

 You ask me for my Journal I feel
 wretched alas! I cannot give you and
 have given it to my little niece

My dearest Brother

First of all I must say that we & all are rejoiced at Your feeling Yourself so much better, tho we fear the weakness may still detain You at Brighton which place we do not wonder You are fond of, as all must be, who have had the satisfaction of enjoying not only Your own delightful society but experiencing the comforts of Your Hospitality, it is ever constant conversation & certainly has been of wonderful use, in respect to health, spirits, & change, which I am more & more convinced is necessary to every one at different

different times & makes me more agree-
able to one another —

The reason of my writing is to say to
you with my Brothers kindest &
most affectionate love, that she has
just received not only the public, but
private notification of the death of
Prince of Anjou's death & as she
is her cousin German, she thinks
she had better wear her mourning
ring in the fingers, as she is fear-
ful (the Duke of Cumberland being
here) that if she does not it may
be taken as an offence, & she
feels sure you will approve her
doing nothing to increase her
by quarrels, therefore she is desirous
you should have it given out soon

we also believe that the Prince of
Saxony Weissenbourg has not been
thought of, which is the same
Relationship, if so, You can have
them named at the same time
but whether the notification of
his death is come we do not
know, You can enquire —
You may suppose that we are ex-
tremely anxious that You again
& to have some comfortable quiet
chat with You, Charlotte is happy
& grateful & is *contentue de Dieu* &
wishes it may continue & Your
care on that head over, You will
be much happier when it is —
we have preached sermons with
You, & I expressed strongly how

kind Your conduct had been & that she
must be struck with your affection-
ate consideration of her in constant
ly keeping in your mind her welfare
& that few if any would have acted
as you had done — in short all was
as it should be, & she was exceedingly
good humoured & quite well, she walks
from Cranbourn here so she cannot
be very ill, very lame, or weak —
There are my private remarks to
you, My Mother will be ready
whenever you command her to
come, she has shewn most kind
to Charlotte & I flatter myself you
would be pleased if you could but
know thoroughly we have done what
you wished, but I am very steady
against too many of any female
intimates we are very well in

our way, but low females are bad
things & in a young court too dare
you -

This cold weather we fear will do you
harm all here have felt it some way
or other Mary is now well enough
to come to the party Sophia is sadly
punished, My Mother quite well
& Augusta enjoys her walking
& exercise when she can, all
unite in affectionate love to
You & I remain

My dearest Brother

My Mother commands me to thank You a
thousand & a thousand times for Your very
great kindness in wishing to have Her
again at Brighton, a visit, You may
be assured, ^{which} would be agreeable to all
but she feels she is acting the part
of a true friend by not going, for
there are so many disagreeable &
abundant reports concerning Garrick
now that she fears were she to go
she should strengthen them, You
may depend on Her going to Town
this moment You come to Father
House & that You let her know that

that You desire him to come, besides
 she thinks You may really want her
 in Town, when Charlotte's business
 comes on, & she feels certain that
 you will think that she has judged
 right, as was she to quit home
now she might scruple to leave
 it when she is sensible she may
 be of more use to You, & tho we
 give up much we have all a
 good she has judged wisely—
 for many things may occur
 that You may wish to talk
 over at the time & consult toge-
 ther upon; I am extremely
 sorry to find that You have had
 a fresh attack of Gout, but as
 the weather is getting milder

Feb. 20 1816

We do hope You will feel better
we are longing for Sir Henry's re-
turn —

We went to see Charlotte today she
is a vast deal better & tho' anxious
reasonable, we have had a great
deal of talk together & she is very
desirous to have You well & in Town
for she is equally provoked with
us at the alarm that long con-
finement has occasioned

Lady Salisbury & Miss Georgiana
seem to say that we might see
Georgiana once again before she
changes her name, they are so
agreeable that we are sorry that
they cannot stay longer than
Thursday till the marriage is to

take place so soon that they must be
in Town, — The death of the D^o of
St Albans & her child has struck me
with horror we know no further
loss, but that it is so —

thinking the matter over, finding
Mr Dobson ill, & not sure of dear

 I trust is that if the wretches

be my daily prayer, my
feelings you can over-ride,
