Oct the 8

My dear Papa I am thankful to be able  
 to say dear Amelia passed a better day  
 yesterday than she has done for  
 the last week or so about me, I like  
 to see her not escape a week to return  
 to bed till evening, I like she was  
 rather more languid towards  
 evening but cheerful & pleasant  
 her Pulse rather soft full  
 She has had some sleep in the  
 night from 12 till three very  
 quiet sleep after that was  
 much disturbed with the  
 pain in her side she  
 appears unfeared & languid  
 this evening — I have to thank

You for a very kind letter received  
 yesterday by which I rejoice to  
 find that you wish Dr P's visit  
 to delay his visit to Regensburg  
 therefore I trust we shall be  
 able to send him at all events  
 & then be able to the best  
 judge where we may not  
 not with safety. I think it will  
 be a great satisfaction to  
 Bismarck as well as to myself  
 the arrival of Dr P's

I remain your faithful & affec<sup>t</sup>

Mary
