

to Princess Mary

February 27. 1740

Queen's Palace February 27
1740

My Dearest Mary,
Your kind letter received this day afforded
me more comfort than any Report concerning the Amelioration
which had been made to me for a considerable time past
& I was with great Pleasure that the hopes expressed
of your recovery that she had been returned by the Physicians
are confirmed by the subsequent Report since the
Recovery had been so much farther than usual.

My Queen desires me to add
that she has not time to write to you before she goes
to St James's, but that she proposes to see her
Tomorrow on her Return to Windsor.

Believe me to be

(Signed)
George R.
