

Princess Mary

March 7 & 8. 1840

Ms. 748. 1840

Wednesday Night

My dear Papa I return you my most grateful thanks for the letter received this evening by the return of the groom -

I am happy to be able to say that Amelia has passed a very tolerable day barring the pain & oppression on the head which at times distressed her very much, therefore

Dr. Pope thought proper to apply leeches which have relieved her, as they stood very well - She went into the

Warm bath this evening & when Dr. Pope came at 8 o'clock found the Pulse very quiet

& little or no heat about her. She is to take her medicine again to night. Your dutiful

Mary

Thursday Morning

8 o'clock I am happy to be

at the 10 day clear Amulua
went to sleep at 12 o'clock
and did not wake till
4. Then went to sleep
again at 5 and slept
an other hour —
