

Sat. May 7th 19 1810
(cf. last)

My dear Brother — I am most thankful
to be able to say that the Physicians inform
me to give you a letter signed Thomas
I intended to hope this morning —
though this last attack has been
most violent & is not over yet. Yet
they are seized with a disease
though in a much more suffering
state than when they were
last that it is not materially
worse & hope in a few days we
may see a great change for
the better — The doctor has most
love to you & thanks you for the
Coffee which she likes very
much — In words can describe
what a much of anxiety I have
traced & how alarmed I was
part of yesterday & early this

assuming as the entrance of the
 train on the side and very
 frightful to witness, attended
 with pain which was very
 painful to witness, - the cold
 weather added to the distress
 of her mind she suffers in the
 subject of the Colic's has
 certainly helped to make
 her much worse & has
 more than her usual
 affected & I fear will remain
 so for some time as
 I think she is only now
 beginning to feel the effects
 of this long illness -
 I hope you are quite well
